

## WHY OUTSOURCE

For many Doctors one of the most important questions they face is whether or not to outsource their medical claims processing and billing services to a third-party professional or do it in-house.

Dunik Medical Claims offers top notch medical claims processing and billing services to save you time, money and frustration using a web based MedClaim system. We are the only medical claims and billing management experts registered in Kenya. By using us, your claims will get processed faster and more efficiently for maximum reimbursements in less time and effort. Secondly, we allow you use our MedClaim system and technology providing you with an opportunity to track your claims and billing services from anywhere at any time 24/7. Your practice will enjoy features like patient scheduling and data management.

### Benefits of Outsourcing Medical claims and billing services

Outsourcing your medical claims and billing services leads to direct cost savings of up to 45%. More than this, the other benefits of outsourcing include:

- Frees you of the burden of medical claims and billing follow up
- No capital investment in software and/or hardware.
- Allows you to focus on treating your patient and generating new business.
- Commission fees is paid based on collection results
- Keeps track of all your claims and billing.
- Fast claim payments
- No need to invest in additional staff – the cost of outsourcing is far less when compared to local staff costs
